

COLLEGE *for* Creative STUDIES

CCS Community and Friends,

Welcome to the CCS 2021 Student Exhibition. While we can't be together in person, we were able to gather our students' incredible work in one place to celebrate their achievements.

Despite this challenging year, we made it to the finish line and have so much to celebrate. We are so proud of our students' perseverance this year and are in awe of the outcomes of their creativity and hard work that are included in this exhibition.

Working within and between disciplines, today's artists and designers bridge the gap between tradition and innovation, and their influence can be felt throughout society. They create the cutting edge that others aspire to be on. CCS students are leading the charge, using art and design to create social change, make beauty and inspire.

Please join me in congratulating our students. Thank you for visiting and please enjoy the 2021 Student Exhibition.

Don Tuski
President
College for Creative Studies
